International

We are working in several countries, and we are ready to develop your own business

Interface

We are working on the app and testing it to make it user friendly

How does it work?

A registration form with the following fields: Country, City, Company name, email, password. At the bottom is a yellow button labeled "Registraton".

In this screen starts shift of staffs and by scanning QR you can always to see operating instructions

A screen titled "License Plate" with a numeric keypad (0-9, a clear button, and a backspace button). At the top right are two orange buttons: "Report" and "End Shift".

In this screen you can tap plate number of car. Also two buttons Report - real time and End Shift then print report

A screen titled "Price" with a numeric keypad for selecting parking prices. The keypad includes buttons for 1, 5, 10, 15, 20, 25, 30, 35, 40, 43, 45, and 50.

In this screen you can choose price, and duration to parking. You can set the prices that you want

A screen titled "Confirm Sale" showing "Fee: 20" and "Plate: 586". It has two orange circular buttons with "R" and a refresh icon. Below are two radio buttons for "Valet" (selected) and "Self". At the bottom are five orange buttons: "Receipt", "Window Stub", "Key Stub", and "New ticket".

In this screen you can first of all choose type of ticket: valet/self. Restart or reprint the ticket if you have some mistakes
